

Announcement

GRANTS AHEAD OF THE ERA-CVD CALL FOR MULTINATIONAL RESEARCH ON HEART FAILURE

UNIKARD announces positioning grants of up to 4x50 000 NOK ahead of the large multinational call from ERA-CVD in January 2016. The aim of the UNIKARD grants are to support and stimulate Norwegian research centers to initiate international projects within the field of heart failure research, as described in the preliminary announcement from ERA-CVD:

http://www.era-cvd.eu/media/content/ERA-CVD_JTC2016_Preliminary_announcement.pdf

The application for positioning grants must include a short description of the planned project. In addition, at least two collaborating research centers from a minimum of two other ERA-CVD-countries must be named. The application form is available through the following link:

<http://unikard.org/wp-content/uploads/2016/01/Application-form.docx>

The grant should preferably be spent on travel expenses related to meetings between the collaborating partners, but could also cover other costs related to the work with the application.

The maximum available grant per project is 50 000 NOK. UNIKARD can help with administering meetings in Norway.
